## SUMMARY

Full-stack developer with a Diploma in Computer Programming (3.8 GPA) from Niagara College. Proficient in Java, MERN stack (Next.js, Node.js), and databases (MongoDB, MySQL), with experience building scalable web applications, including a secure e-commerce platform and resource management portal.

## PROJECTS

### Full-Stack E-commerce Platform (*Next.js, TypeScript, PostgreSQL*)

[GitHub](#) [Demo](#)

- Built secure API endpoints with Next.js and Prisma for CRUD operations on products, users, and orders in a PostgreSQL database.
- Implemented user authentication and session management using NextAuth.js for seamless registration and login.
- Designed a dynamic shopping cart with global state management, enabling real-time price updates and item modifications.
- Created a high-performance product catalog with dynamic routing for individual product pages, enhancing user experience.

### College Resource & Scheduling Portal (*Next.js, MySQL*)

[GitHub](#)

- Developed a role-based platform with dashboards for Admin, Instructor, and Observer users, ensuring secure access control.
- Built a Master Scheduling tool with Excel import/export and term-based filtering, streamlining administrative tasks.
- Collaborated on UI/UX design using Figma and managed team coordination with Git/GitHub best practices.
